

AERIAL APPLICATION: TREES AND VINE CROPS (EXCLUDING CITRUS)

General Information

GENERAL INFORMATION

Brandt Sequestar 14% Cu is a fully chelated, water soluble, powdered form of copper EDTA and is recommended for the prevention and correction of copper deficiency in crops. The preferred use is as a soil application to prevent the deficiency although it may also be used as a foliar spray to provide correction when a soil application is impractical.

Limitations, Restrictions, and Exceptions

Aerial Application: Apply 1/3 lb of BRANDT SEQUESTAR 14% Cu per acre in at least 10 gal of water. For application timing and frequency, refer to appropriate foliar application recommendation.
