

## **DILUTE - GROUND APPLICATION**

### General Information

#### GENERAL INFORMATION

MULTI-SPRED is a 98% active premium blend of organosilicones, methylated vegetable oil and non-ionic surfactants. It provides superior spreading, penetration and activation of herbicides, fungicides, insecticides and defoliant. Because MULTI-SPRED contains organosilicones, it offers faster, more uniform distribution of active material on the leaf surface than conventional spreaders. The vegetable oil ensures complete penetration through the waxy leaf cuticle.

#### DIRECTIONS FOR USE:

Preparation of Spray Material.

1. Fill spray or mix tank with 1/2 to 3/4 the desired amount of water. Start mechanical or hydraulic agitation.
2. Add the required amount of pesticide.
3. Add the required amount of MULTI-SPRED and continue agitation until a uniform mixture is obtained.

NOTE: Maintain constant agitation of spray mixture during standing and application to assure uniform pesticide application.

4. Add the remaining volume of water and mix contents thoroughly.

#### COMPATIBILITY

This product may be used with wettable powder, emulsifiable concentrate or solution formulations of most of the pesticides and insecticides now on the market.

#### Limitations, Restrictions, and Exceptions

#### DILUTE RATES:

Ground Application: Use 3 to 5 pints of MULTI -SPRED per 100 gallons of spray mix.
