

VEGETABLE AND ROW CROPS

General Information

General Information:

Root Fix is designed to support the development of plant roots. Root Fix is intended to be a supplement to an adequate and balanced soil fertility program. Always monitor crop nutrient needs and responses with a soil and tissue analysis program and adjust accordingly.

- Not intended for foliar applications on food crops. Avoid contact with fruit and produce intended for human consumption.

Limitations, Restrictions, and Exceptions

Vegetable & Row Crops: Repeat application in 14-21 days, as needed.
