

FOLIAR APPLICATION - BERRY CROPS

General Information

GENERAL INFORMATION

NUE 0-30-0 is a concentrated phosphate fertilizer.

Compatibility - NUE 0-30-0 is compatible with most pesticides.

WARNING: NUE 0-30-0 may LOWER the pH of the spray solutions. If desired, raise pH by adding NUE Cal-8. When tank mixing NUE 0-30-0 with pesticides requiring specific pH ranges, always follow pesticide label directions.

NUE 0-30-0 can be blended with other liquid fertilizers.

Always conduct a jar test before mixing with other fertilizers (i.e. phosphate). If any precipitation occurs, it may be necessary to add a compatibility agent. Consult your Bio-Gro dealer for more information.

CAUTION: Tank mixes with copper based fungicides can be toxic due to increased solubility of copper. Application of this product with copper fungicides or any other low pH sensitive product is not recommended.

SUGGESTED APPLICATIONS

NUE 0-30-0 can be used on crops where foliar, fertigated or soil applied fertilizer are required. Consult your Bio-Gro dealer for specific recommendations.

Limitations, Restrictions, and Exceptions

FOLIAR APPLICATIONS

NUE 0-30-0 can be applied by ground, or air equipment. Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets.

Do not apply foliar applications of NUE 0-30-0 under poor drying conditions or in excess heat.

Berry Crops: Apply 2 to 8 quarts per acre of NUE 0-30-0 after active vegetative

growth begins. Applications may be repeated in 7 to 14 day intervals. Dilute spray in at least 100 gallons per acre of water.
