

IN CITRUS PACKOUT WAX

General Information

GENERAL PRECAUTIONS AND RESTRICTIONS:

Do not apply this product in a way that will contact workers or other persons. Only protected handlers may be in the area during application.

Application Restrictions for Citrus Drench:

Do not enter or allow others to enter the treatment area until the citrus is treated and completely drained. The windows and doors of the transport vehicle must be closed prior to and during treatment.

- Combinations of above listed applications can be made, but never more than two treatments can be carried out on the same lot of citrus.

- For waxes, sporulation control can be obtained at 4000 ppm active ingredient. Dilute 1 part of Deccoziel with 55 parts of citrus wax to obtain this concentration. When this dilution is used, combinations of treatment are not allowed.

Limitations, Restrictions, and Exceptions

IN CITRUS PACKOUT WAX

- Dilute 1 part of Deccoziel with 110 parts of citrus packout wax (2000 ppm Imazalil). Use without further dilution in conventional waxing equipment.
