

FOR POOLS

General Information

DIRECTIONS FOR USE

For use in residential pools, spas and hot tubs, do not apply this product in a way that will contact adults, children or pets.

USE INFORMATION

PristineBlue is used to control algae and to suppress nonpublic health bacteria and bacteria that cause odor problems in residential pools, spas and hot tubs.

Limitations, Restrictions, and Exceptions

FOR POOLS

Apply at the rate of 2 fluid ounces of PristineBlue per 1,000 gallons of water (20 fluid ounces per 10,000 gallons).

Every 14 Days: Test the copper level using a standard commercial swimming pool copper test kit. Add PristineBlue to raise level back to 0.9 ppm (see tables on label for Maintaining Metallic Copper Concentration in Pools). The amount of PristineBlue to be added is proportional to the starting concentration and volume of water. Do not exceed 1.0 ppm metallic copper.
