

DEFOLIANTS, DESICCANTS

General Information

GENERAL INFORMATION

MSO ULTRA is an active premium blend of methylated seed oil and non-ionic surfactants. It provides superior spreading, penetration and activation of herbicides, as well as with other pesticides and/or fertilizers . MSO ULTRA is designed for use with agricultural chemical spray programs to optimize product performance by increasing leaf penetration while giving a more uniform distribution of the active materials.

Limitations, Restrictions, and Exceptions

DEFOLIANTS, DESICCANTS:

Use 1 to 4 pints of MSO ULTRA per acre in combination with the recommended defoliant or desiccant.
