

## **FOR USE ON PEARS**

### Limitations, Restrictions, and Exceptions

#### FOR USE ON PEARS:

For use in foam washers. Dilute 1 gallon of Deccosol 125 Concentrate with 11 gallons of water. This dilution is foamed and brushed onto the pears for 15 to 30 seconds after which it is thoroughly rinsed off with fresh water. Or, for use in the Decco Process by or under the supervision of DECCO US POST-HARVEST INC. personnel.

NOTE: Do not exceed 30 seconds contact time; use mechanical cleanouts if necessary.

- For control of organisms causing decay of pears after harvest.
- Once opened use the entire contents of the container within 120 days.
