

NORWAY RATS, ROOF RATS, ETC.

General Information

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for formulation into Bait Products for:

- (1) use in and around homes, agricultural and industrial buildings, and similar man-made structures and in sewers to control Norway rats, roof rats, and house mice and use in noncrop areas, forests, parks, nurseries, dormant and non-bearing orchards, rangeland, and crop land (manual application underground or around burrow entrance) to control Polynesian rats, ground squirrels, chipmunks, muskrats, jackrabbits, cotton-tail rabbits, meadow mice, deer mice, meadow voles, pine voles, prairie voles, pocket gophers, or mongooses.
- (2) uses for which USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of the registration; and
- (3) uses for experimental purposes that are in compliance with USEPA requirements.

Limitations, Restrictions, and Exceptions
