

GRAPE AND BERRIES

General Information

GENERAL RECOMMENDATIONS

This amino acid complex is manufactured and designed for foliar and soil application on plants to prevent or correct deficiencies that usually occur when plants are small and may limit crop growth and yields. This product is readily available and rapidly absorbed by the plant because of the complexing properties. It is water soluble and non-toxic to plants when applied as directed. This product is a proprietary formulation that has been specifically reacted with emulsion polymerization that provides a wide range of mixing ease with other fertilizers or chemicals.

Limitations, Restrictions, and Exceptions

GRAPE AND BERRIES

The applications may be repeated at intervals of one week or more throughout the vegetative growth period.
