ONION (GREEN), LEEK, SHALLOT

General Information

COMBINATION SPRAY WITH INSECTICIDES ON ORNAMENTAL PLANTS

Ortho Max Garden Diseases Control Concentrate may be mixed with the following insecticides for use on ornamental plants (at the label rates for both products): Ortho Bug-B-Gon MAX Lawn and Garden Insect Killer Or Ortho Malathion Plus Insect Spray. Apply fungicide on a regular schedule to control disease and add insecticide only when insect control is desired. Do not apply more than three consecutive applications of combination sprays. Do not use combination sprays with Dial 'N Spray or similar devices.
