

SMALL GRAINS

General Information

PRODUCT INFORMATION

START - UP Primary Blend was formulated for use with basic starter fertilizers pH 6 or higher at planting time.

START-UP Primary Blend can be incorporated in basic liquid fertilizers at time of planting, side dressing application, or other situations where it is difficult to get micronutrients to the root zone, START - UP Primary Blend is composed of organic carriers of Citric Acid which forms a chemical bond when processed.

START - UP Primary Blend is a liquid plant food containing micronutrients. The micronutrients are chelated with Citric acid to provide easy mobility into the plant system.

START - UP Primary Blend micronutrients are formulated to provide a fast method to boost plants under nutrient stress periods and for correction of micronutrient deficiencies.

START - UP Primary Blend is compatible with most insecticides, fungicides, herbicides, nematicides and liquid fertilizers.

START - UP Primary Blend can be applied to most vegetable crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, strawberries, cotton, corn, small grains, sunflowers, sugar beets, mint and most other crops.

CAUTION: The application of fertilizer materials containing molybdenum may result in forage crops containing levels of molybdenum which are toxic to ruminant animals.

CAUTION: Excessive amounts of Boron may cause damage to susceptible crops.

Limitations, Restrictions, and Exceptions

SMALL GRAINS

- 1 qt/acre with starter fertilizer.
