

# **GARDEN FLOWERS - FOLIAR APPLICATION**

General Information

## **PRODUCT INFORMATION**

START-UP Fe & Mn Chelate Solution was formulated for use with basic starter fertilizers Ph 6 or higher at planting time.

START-UP Fe & Mn Chelate Solution can be incorporated in basic liquid fertilizers at time of planting, side dressing application, or other situations where it is difficult to get micronutrients to the root zone.

START-UP is composed of organic carriers of Citric Acid which forms a very strong chelated bond when processed.

Fe & Mn generally become more available when combined and applied with a good nitrogen source. To insure that maximum manganese uptake is obtained we have incorporated a nitrogen source in our START-UP product line.

Limitations, Restrictions, and Exceptions

## **GARDEN FLOWERS**

Foliar Application – Thoroughly wet leaves using 1 qt. per 100 gallons solution. Do not apply during bloom.
