

TREES INCLUDING CITRUS, OTHER FRUIT AND ORNAMENTALS - FOLIAR APPLICATION

General Information

PRODUCT INFORMATION

START-UP 5% Iron Chelate Solution was formulated for use with basic starter fertilizers pH 6 or higher at planting time. START-UP 5% Iron Chelate Solution can be incorporated in basic liquid fertilizers at time of planting, side dressing application, or other situations where it is difficult to get micronutrients to the root zone.

START-UP is composed of organic carriers of Citric Acid which forms a chemical bond when processed.

Iron generally becomes more available when combined and applied with a good nitrogen source. To insure that maximum Iron uptake is obtained we have incorporated a nitrogen source in our START-UP product line.

Limitations, Restrictions, and Exceptions

TREES INCLUDING CITRUS, OTHER FRUIT AND ORNAMENTALS

Trunk diameter over 6 inches: Foliar Application - Thoroughly wet the leaves using 1 qt. per 100 gallons of solution. Do not apply during bloom.
