

# **CONTROL OF ANTS - GENERAL SURFACE APPLICATION INDOORS**

## General Information

### PRODUCT INFORMATION

PIVOT 10 inhibits the typical development and ability of immature insects from reaching adulthood. PIVOT 10 use can limit insect reproduction by causing adult insect sterilization, reduced egg production, behavior modifications, deformed insects and death. PIVOT 10 may be used in an Integrated Pest Management (IPM) program to help in the prevention of insect resistance.

### PRECAUTIONS:

1. Do not use this product in or on electrical equipment due to possibility of shock hazard.
2. Do not wet carpet, draperies and furniture. **STAINING:** Before using PIVOT 10, test the spray solution in a hidden area before use. As with other products, some fibers or surfaces (such as vinyl siding) may be affected by an application of this, or any liquid product.
3. Before use in commercial or residential food areas, refer to the Food Handling Establishment section of the label.

Remove patients in hospital, nursing homes, or any rooms before treating. If application is done as a surface spray or crack and crevice application, patients may re-enter once the spray has dried. If application is a ULV Fog or space spray, patients may return to the room after it has been thoroughly ventilated.

4. In institutions (including libraries, sports facilities, etc.) applications may be made while the facility is in use, provided treatment is not made in the immediate area where people are present.

### APPLICATION INSTRUCTIONS

PIVOT 10 may be applied both indoors and outdoors as a general surface spray, ULV/fog or space spray application, spot treatment or crack and crevice application. Application may be made using power sprayers, hand pump sprayers, void

injectors, in carpet shampoo, using a paintbrush, roller, professional foam applicator, or similar device.

**SURFACE APPLICATIONS:** Diluted spray may be applied as a spot treatment, broadcast surface application or crack and crevice spray. Apply spray solution to areas where conditions support insect populations and reproduction.

Limitations, Restrictions, and Exceptions

FOR CONTROL OF ANTS

General Surface Application Indoors: PIVOT 10 may be used as part of an integrated approach to control ants. Apply broadcast, spot or crack and crevice treatments of PIVOT 10 at the rate of 12 mL diluted in water per 1,500 square feet (139 sq meter) to interior areas where ants are actively foraging and traveling. May be used in conjunction with baits and/or residual treatments. If application is being made in food areas, read and follow the \"FOOD HANDLING ESTABLISHMENT APPLICATIONS\" instructions in the label.
