

DRY SEEDED OR DRILLED RICE

General Information

GENERAL INFORMATION:

SAFEGUARD Adjuvant for Rice is a non-ionic surfactant with spreader-sticker properties specially formulated for use with HARBINGER Herbicide in pre-flush, pre-rice germination, dry seeded or drilled rice. This bicyclic terpene compound provides a level of protection to rice plants from herbicide phytotoxicity when applied to dry seeded or drilled rice in combination with HARBINGER Herbicide.

Limitations, Restrictions, and Exceptions

Directions for use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations.

NOT FOR AQUATIC USE IN WASHINGTON.
