

RECOMMENDED DOSAGE

General Information

GENERAL INFORMATION

Ultra Defoam-It is a water-based, silicone emulsion, antifoam agent and defoamer. Ultra Defoam-It can be used to prevent foam formation or knock down existing foam. Use rates for Ultra Defoam-It depends directly on temperature, composition, viscosity, agitation and other various conditions; therefore rates may require adjustment for the most effective dosage. Generally, use rates are lower when used as an antifoam to prevent or reduce foam formation.

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE

Use Ultra Defoam-It at 1/2 - 1 oz. per 100 gallons of solution. It may be necessary to adjust the amount used according to individual conditions. In situations where foam develops after the fluid level drops, stop agitation and add the recommended dosage of Ultra Defoam-It.

When foaming develops in urea water solutions, it may be necessary to use more Ultra Defoam-It.

NOT FOR AQUATIC USE.
