

APPLICATION TO POD MOUNTED ELECTRICAL SITES TO REDUCE OR PREVENT ANT MOUND BUILDING ACTIVITY

General Information

DIRECTIONS FOR USE

Do not apply more than 0.2 lb. active ingredient (a.i.) per acre per application on residential use sites (i.e., around private homes, apartment buildings, condominiums, non-agricultural outbuildings, non-commercial greenhouses, pre-schools or day care facilities). May be applied at up to 0.4 lb. a.i. per acre per application on non-residential use sites (i.e., around institutional, public, commercial or industrial buildings; parks; recreational areas or athletic fields).

Aerial application is prohibited.

Do not broadcast apply more than 0.4 lb. a.i. (200 lbs. UP-Star GC Granular) per acre per year.

Do not apply within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries, and commercial fish farm ponds.

Not for use on nurseries, in commercial greenhouses or on grass grown for seed.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Limitations, Restrictions, and Exceptions

INDUSTRIAL NON-AGRICULTURAL APPLICATIONS

(Including Industrial Sites, Parks, Ball Fields and Cemeteries)

Application to Pad Mounted Electrical Sites to Reduce or Prevent Ant Mound Building Activity: uniformly distribute 1.0 to 1.5 tablespoons (0.06 to 0.09 lb.) of UP-Star GC Granular Insecticide per 4 sq. ft. of mounting pad. If existing transformers are completely or partially filled with soil which has been excavated by resident ants,

first remove any excess fill and level the remaining soil before application is made. If food utensils such as tablespoons are used to measure pesticide, they must not be used for food purposes afterwards.

Note: Ants are more attracted to electrical transformers in the Fall or early Spring. For best results, make application in these cooler months.
