

FOR USE ON BAHIAGRASS, BERMUDAGRASS, ETC.

General Information

How and when to apply

Winterizer With Plus 2 helps you get a thicker, sturdier lawn with increased root development. Apply it as your last feeding of the year to help prepare your lawn for winter and provide better greenup next spring.

Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product applies 1.5 pounds of 2,4-D per acre per application. The maximum number of broadcast applications per treatment site is two per year.

APPLICATION

- Apply any time weeds are actively growing (when daytime temperatures are consistently above 60°F).
- Apply on a calm day.
- For best results apply to moist grass. To help particles stick to weed leaves, the grass should be thoroughly watered or wet from dew before applying Winterizer With Plus 2.
- On bahia and centipedegrass lawns, wait until after the second mowing of the year, but NOT before mid-March. In the fall, DO NOT treat centipede after the first of October and DO NOT treat bahia after the first of November.
- Do not use this product on flowers, shrubs, fruit, or vegetable plants or on creeping bentgrass, St. Augustinegrass, and dichondra lawns. On bermudagrass, bahiagrass, centipedegrass, zoysiagrass lawns, under certain conditions, some temporary discoloration may result.

WATERING OR RAIN

Do not water your lawn for 24 hours after application. Water will wash the weed

control off the weed's leaves and reduce the effectiveness of this product.

This product should not be applied if rain is expected within the next 24 hours.

IMPORTANT

WHAT TO EXPECT

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for complete control.

This product will not prevent weed seeds from producing new plants.

EXTREME TEMPERATURES

Avoid applying when temperatures are consistently above 90°F.

SEEDING/SODDING/SPRIGGING

Wait until the new grass has been mowed at least four times before applying Winterizer With Plus 2.

If you are planning to seed, sod, or sprig, you should wait at least one month after you have applied Winterizer With Plus 2.
