SOIL APPLICATION

General Information

GENERAL INFORMATION:

Mainstay Calcium is a plant nutrient, high in calcium, designed for soil applications.

APPLICATION GUIDELINES:

- Proper application rates and frequency should be determined by specific conditions and plant requirements.

- Always jar test before adding to a spray tank or injection tank.

- Spray and fertigation applications should be made with sufficient water, 50 mesh screens, and agitation throughout the application.

- When tank mixing with other chemicals, it is the responsibility of the end-user to assume compatibility and safety.

- Poly in-line filters should be replaced with stainless steel, if possible.

- Always consult your agronomist.

SHAKE OR AGITATE WELL BEFORE USE.

Limitations, Restrictions, and Exceptions

COMMENTS

- Inject through controlled irrigation system or spray on soil surface and water into root zone.

Method

Soil application

Rates
