

ARTICHOKES, BEANS, BROCCOLI, BRUSSELS SPROUTS, ETC.

General Information

GENERAL INFORMATION

SURE CROP 0-45-29 is a water soluble foliar fertilizer containing phosphorus, potassium and micronutrients combined with sea kelp derived from *Ascophylum Nodosum*, that is recommended to be used as a supplement to a regular fertility program. Do not apply to crops during periods of stress.

CAUTION: Avoid applications with highly alkaline materials such as lime sulfur or spray lime. Do not combine with dormant oil. The use of this fertilizing material on any crops other than those Recommended may result in serious injury to the crop.

DIRECTIONS

Add SURE CROP 0-45-29 to the spray tank when half full. Agitation in the tank will enhance the speed of solubility. Allow extra time for higher rates and areas with extremely cold water to completely solubilize before spraying.

Limitations, Restrictions, and Exceptions

ARTICHOKES, BEANS, BROCCOLI, BRUSSELS SPROUTS, ETC.

- First application when plants are 3 to 4 weeks old and repeat at 8 to 12 day intervals, depending on growing conditions.
