VERSALUX  - BROADCAST

General Information

GENERAL INFORMATION

VERSALUX AC is a blend of macro & micronutrients that can be applied in a versatile manner. VERSALUX AC is designed for use in all crops and may be used for soil or foliar applications. VERSALUX AC is intended to be used as a supplement to a standard fertility program. VERSALUX AC, when used according to the following recommendations, will improve plant health by providing efficient delivery of nitrogen (N) and potassium (K), essential micronutrients (S, Fe, Mn, Zn) as part of a total fertility program.

GENERAL APPLICATION RECOMMENDATIONS

*Always perform compatibility or jar test with all the tank mix components, before mixing large quantities.
