

TURFGRASS

General Information

APPLICATION: SHAKE WELL before using. Dilute with water to obtain uniform coverage. Dilution depends on spraying equipment. For high volume sprayers dilute 1:200 to 1:1000.

For low volume sprayers dilute 1:20 to 1:100. To co-apply with agrochemicals, dilute 1 part NUTRIPLANT AG with 5 parts water prior to mixing with pre-diluted chemicals. Because available formulations of agrochemicals differ widely, a small test area should be treated prior to large scale mixing to determine that no undesirable effects occur. For best results apply in the evening or early morning.

Limitations, Restrictions, and Exceptions

TURFGRASS

3-5 applications per season, 1-2 months apart (0.37 fl oz/1000 sq ft)

- This product is not a lawn maintenance fertilizer and at recommended application rates delivers less than 0.002 lb of N and P₂O₅ per 1,000 sq ft.
