

PATIOS, WALKWAYS, ETC.

General Information

HOW TO APPLY

- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plants are accidentally sprayed, rinse off immediately with water.

IMPORTANT

- Do not spray plants or grasses you like as they may die too.
- Not recommended for spot weed control in lawns since Roundup kills lawn grasses.
- Do not use on or around edible food or feed crops.
- Do not use for lawn renovation or flower bed and vegetable garden preparation (plot preparation); instead use Roundup Concentrate or Roundup Super Concentrate.

WHEN TO APPLY

Apply when weeds are actively growing.

- For best results, apply during warm, sunny weather (above 60° F).
- Spray when air is calm to prevent drift to desirable plants.
- RAINPROOF Protection-. Rain or watering 30 minutes after application will NOT wash away effectiveness.
