

FOLIAR APPLICATION

General Information

Product Information

Agri-Cal liquid calcium presents growers with an alternative solution to lime applications. Agri-Cal is intended as a supplement only and should be used in conjunction with a standard fertility program.

Directions for Use

Agri-Cal can be applied through conventional ground equipment, aerial application, or through properly equipped irrigation systems.

Agri-Cal can be tank mixed with most soil applied herbicides and liquid fertilizer solutions that do not contain phosphorus. No extra trips across the field are generally needed. Always do a jar test to ensure compatibility.

To enhance Nitrogen stabilization Agri-Cal should be used at 2 to 5 gallons per acre with all Liquid N applications.

Limitations, Restrictions, and Exceptions

FOLIAR APPLICATION

Use minimum of ten parts water to one part Agri-Cal.
