

FOR BULBS

General Information

BONIDE MOLEMAX MOLE & VOLE REPELLENT

Effectively rids lawns and ornamental planting areas of Moles, Voles, Gophers, Armadillos, Ground Squirrels, and other burrowing animals.

This product can be safely used around children and pets, when used as directed. This product is biodegradable and will not harm lawns, ornamentals, flowerbeds, or other desirable plants.

OTHER PRECAUTIONS

Do not apply directly to water.

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that the ingredients qualify for exemption from registration under FIFRA.

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE

Apply 1 lb. of product per 500 sq. ft. and reapply every 2-3 months to ensure consistent repellency. This product can be applied directly from the container or by using a broadcast or drop spreader.

For Bulbs: After placing bulb in hole, apply 1 tablespoon of product into the hole, making sure granules surround the bulb then backfill with soil.
