

# FIELD VEGETABLES AND ORCHARD APPLICATIONS - BROADCAST

## General Information

### Proprietary Process!

Perfect Blend fertilizers are made using a proprietary process that produces a high quality nutrition to soil microbes that are responsible for breaking down minerals for plants while helping to maintain a balanced pH in your soil.

Application Rates - Most crop lands require two applications, one in the spring and one in the fall. High nitrogen crops may require up to three applications during the primary growing season.

### Limitations, Restrictions, and Exceptions

### Field Vegetables & Orchard Applications:

Broadcast - Broadcast up to one ton per acre using conventional spreading equipment. Fertilizer is most efficient if tilled in immediately after application.
