

# FIELD VEGETABLES AND ORCHARD APPLICATIONS - NEW ORCHARDS

General Information

Proprietary Process!

Perfect Blend fertilizers are made using a proprietary process that produces a high quality nutrition to soil microbes that are responsible for breaking down minerals for plants while helping to maintain a balanced pH in your soil.

Application Rates - Most crop lands require two applications, one in the spring and one in the fall. High nitrogen crops may require up to three applications during the primary growing season.

Limitations, Restrictions, and Exceptions

Field Vegetables & Orchard Applications:

New Orchards - Place one pound of Perfect Blend Organics 6-3-3 in the bottom of the planting hole, cover with at least one inch of dirt and then place tree.
