

CITRUS - SINGLE APPLICATION

General Information

GENERAL APPLICATION RESTRICTION:

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Limitations, Restrictions, and Exceptions

APPLICATION FOR CITRUS:

Single application:

For an adequate sporulation control, use two bags of 575 grams each (or equivalent) of Decco Salt No. 19 in 60 gallons of wax to give about 5000 PPM TBZ. Apply one gallon of this mixture by spray to 8,000- 10,000 lbs of citrus fruit.

Do not use this rate if the fruit had been treated with TBZ previously.
