

TOMATOES

General Information

Fertigation

Application of Phytamin All Purpose is safe through most types of irrigation equipment including drip tape and aluminum pipe.

Phytamin All Purpose may not pass through some drip type irrigation systems.

Always flush irrigation lines after Phytamin treatment to prevent possible clogging or corrosion.

Always inject Phytami products in front of any filter system.

Phytamin All Purpose is mildly corrosive to aluminum in a concentrated form.

Not recommended for use in hydroponics. Please contact the manufacturer for information on special formulations.

DIRECTIONS FOR USE

Mix well before use.

Other Crops

Application Rates: Phytamin All Purpose may be used successfully on most crops.

Please consult your dealer for rates and timing of applications.

Limitations, Restrictions, and Exceptions

Tomatoes

Phytamin All Purpose may be applied at any time throughout the bloom period.

Application Rate: $\frac{1}{2}$ - 1 gallon per acre at 10 to 14 day intervals throughout the bloom period.
