

SOIL APPLICATION - WATER-RUN

General Information

Fertigation

Application of Phytamin is safe through most types of irrigation equipment including drip tape and aluminum pipe.

Phytamin may not pass through some drip type irrigation systems. Always flush irrigation lines after Phytamin treatment to prevent possible clogging or corrosion.

Always inject Phytamin products in front of any filter system Phytamin is mildly corrosive to aluminum in a concentrated form.

DIRECTIONS FOR USE

Mix well before use.

Other Crops

Application Rates: Phytamin may be used successfully on most crops. Please consult your dealer for rates and timing of applications.
