

SOIL APPLICATION

General Information

PRODUCT INFORMATION

Organic BioLink Cal-N is a liquid plant food containing nitrogen and calcium which are crucial for plant development. Calcium is essential for cell wall structure and membrane permeability and, along with nitrogen, plays an important role in root, shoot and fruit development.

Organic BioLink Cal-N is suspension design to improve nutrient availability and uptake by plant roots and leaves, and to provide a fast method of boosting plants under nitrogen and calcium deficiencies.

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE

SHAKE VIGOROUSLY BEFORE USING.

Organic BioLink Cal-N can be applied to all crops such as brassica (cole), berries, citrus, cucurbits, field vegetables, fruiting vegetables, fruit trees, grapes (raisin, table and wine), leafy vegetables, root and tuber vegetables, row crops, strawberries, tree nuts, ornamental trees, shrubs, flowers, containerized plants, lawns and turf. Apply as a soil drench or a foliar spray with conventional spray equipment or chemigation.

Soil Application: 1 to 5 gallons per acre. Apply in irrigation water until ground is saturated. Continued applications every 7 to 14 days at rate of 1 quart per acre through growing season as needed.
