

WITH SPRAY MIX NOT TO EXCEED 5%

General Information

GENERAL INFORMATION

WAI CROP OIL is blend of special nonionic surfactants with phytobland (nonphytotoxic) oil. It is designed for use with a broad range of pesticides including herbicides, insecticides, fungicides and/or fertilizers and micronutrients. WAI CROP OIL increases contact activity of the spray, aids in penetration of plant canopies, and provides uniform coverage of the leaf.

MIXING INSTRUCTIONS

Carefully read and follow directions on the label of the chemical with which WAI CROP OIL is to used. For local recommendations, consult a competent agricultural authority or mix in this order:

1. Dry flowable chemicals.
2. Wettable powder chemicals.
3. Flowable chemicals.
4. Water-soluble chemicals.
5. Emulsified concentrate chemicals.
6. Add WAI CROP OIL and continue agitation

Limitations, Restrictions, and Exceptions

Direction For Use:

For conventional use, follow the pesticides, fertilizer's or micronutrient's label adding WAI CROP OIL last. Agitate during the entire mixing process and during application. Use 1 to 2 quarts of WAI CROP OIL with your spray mix not to exceed 5%.
