

FOLIAR APPLICATION - FIELD, ROW, VEGETABLE AND VINE CROPS

General Information

General Information

BRANDT SMART B is specifically formulated for delivery of boron for all crops.

Mixing and Handling Instructions

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

Limitations, Restrictions, and Exceptions

Field, Row, Vegetable and Vine Crops: Apply 0.5-1 pint per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.
