

SOIL APPLICATIONS

General Information

Mixing and Handling Instructions

Apply in a minimum of 10 gallons water per acre or 3 gallons water per 1000 sq. ft. This product may also be applied via drip or sprinkler fertigation.

Put 1/3 to 2/3 of total required water volume in tank. Add adjuvants, fertilizers and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of this product and agitate until thoroughly mixed. Fill tank with remainder of water.

BRANDT SUPREME GREEN is compatible with most fertilizer blends. However, check chemical mixture compatibility using a jar test prior to application.

Limitations, Restrictions, and Exceptions

SOIL APPLICATIONS

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general plant health and plant species. For best results, follow soil test or plant analysis recommendation.
