

SOIL APPLICATION

General Information

GENERAL INFORMATION: MG X-TRA is designed as a foliar spray for row and field crops. It may also be used as a soil-applied product on various soil types. MG X-TRA may be used to treat or prevent magnesium deficiencies while providing a highly compatible source of magnesium for tank mixes.

COMPATIBILITY: MG X-TRA is compatible with most pesticides and fertilizers. However, a compatibility test is recommended if the desired combination has not been used in the past.

DIRECTIONS FOR USE

Apply with adequate water to provide optimal coverage.

Limitations, Restrictions, and Exceptions

SOIL APPLICATION: Apply 1/2 to 2 pints per acre. Rates will depend upon the level of deficiency.
