

FOLIAR APPLICATION

General Information

GENERAL INFORMATION

CM CROP MIX Z-M-C is formulated for field, vegetable, row, fruit, tree, vine, ornamental and turf crops.

CM CROP MIX Z-M-C may be applied through drip systems, aircraft, or via ground sprayers (high-volume or low-volume).

CM CROP MIX Z-M-C may be applied alone or with fertilizers or pesticides. It may be applied either to the plant foliage or to the soil. CM CROP MIX Z-M-C is compatible with most pesticides and fertilizers. However, a compatibility test is recommended if the desired combination has not been used in the past.

DIRECTIONS

Mixing Sequence

1. Water
2. CM CROP MIX Z-M-C
3. Pesticide

Always add this product to water or nitrogen solution before adding phosphate material.

Limitations, Restrictions, and Exceptions

Foliar Application: Apply as needed on a 10-14 day schedule. When rates of over 2 quarts are required, split applications of 2 quarts or less are recommended. Avoid foliar applications of CM CROP MIX Z-M-C when plants are under stress due to lack of moisture.
