

INDOOR TREATMENTS - FOR HEAVY INFESTATIONS

General Information

HOW TO USE BASF CRACK & CREVICE INJECTION SYSTEM

CRACK & CREVICE TREATMENTS: Use only with the supplied actuator and injection tubes. Inject into cracks and crevices or void spaces where insects may be harboring, living and breeding. Place injector tip into cracks, crevices, holes and other small openings. Release approximately 1 sec of product. For light infestations, move injector tip along cracks while treating at the rate of 3 ft/sec. For heavy infestations, move injector tip along at 1 ft/sec. For closed voids, calculate the void's cubic area and treat at the rate of 5 to 10 sec/3 ft³. Several holes may be required in long running voids.

SPOT TREATMENTS: To make a spot treatment, release product onto the surface. DO NOT exceed 2 ft² for each spot treatment.

Limitations, Restrictions, and Exceptions

INDOOR TREATMENTS

CRAWLING INSECTS - Cockroaches, Spiders, Waterbugs, Silverfish, Crickets, Firebrats: Apply as a spot treatment and/or Crack & Crevice treatment into hiding places such as cracks and crevices, moist areas and openings around pipes. Treat floors, walls, under pallets, behind shelves and drawers. Apply directly on insects in these locations where possible.

TICKS: Thoroughly treat infested and egg laying sites near pet resting areas such as cracks and crevices, behind baseboards, door and window frames.

BOOKLICE & SILVERFISH: Inject into cracks and crevices associated with baseboards, door frames, bookcases and other harborage sites.

ANTS: Treat trails, nests and points of entry around doors, bookcases and storage areas. Apply directly on insects in these locations where possible.

BED BUGS: Apply to cracks and crevices where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty dressers and clothes closets, carpet edges, high and low wall moldings and wallpaper edges. DO NOT use this product

on mattresses, pillows, bed linens or clothes. Remove all clothes and other articles from dressers or clothes closets before application. Allow all treated areas to dry thoroughly before use. Not recommended for use as sole protection against bed bugs. If evidence of bed bugs is found in/on mattresses use products approved for this use.

CARPET BEETLES: Make applications on and under edge of floor coverings, under carpets and furniture and in closets or other localities where these insects are found.

STORED PRODUCT PESTS: Make spot and/or Crack & Crevice treatment to localized areas including shelves, cupboards, walls and floors where food products suspected of being infested are stored. Remove or cover food before treatment. This treatment is supplemental to good housekeeping, since it will have no effect on insects within packaging. Discard infested food/food packaging.
