

DEFOAMING AGENT

General Information

Liquid Antifoam

- Eliminates unwanted foam
- Use as antifoam or defoamer
- Highly effective

Shake Down Liquid Antifoam eliminates unwanted foaming in spray applications involving recirculating sprayers and other high-agitation equipment.

Directions For Use

For best results, add Shake Down to solution prior to foaming. If foam already exists, add Shake Down until foam is eliminated.

Shake Down is a Polydimethylsiloxane approved for use as a spray adjuvant under 40 CFR 180.1001 (c) at labeled rates.
