

# **TREE , VINE, BERRY CROPS - PECANS, PISTACHIOS, WALNUTS**

## General Information

### GENERAL INFORMATION

VINE BUILDER is designed to be used primarily for foliar application and for use on turf crops. It may be used as a starter fertilizer with seed or transplants. It may also be soil applied. VINE BUILDER is intended to be a supplement to a regular fertilizer program. Rates on this label are for foliar application. May be applied by ground or air.

### Limitations, Restrictions, and Exceptions

Pecans, Pistachios, Walnuts: Apply 3-4 quarts per acre at pre-bloom, and again every 4 to 6 weeks until 30 days prior to harvest.
