

VEGETABLE CROPS - OTHER VEGETABLE CROPS AND ROOT CROPS

General Information

GENERAL INFORMATION

VINE BUILDER is designed to be used primarily for foliar application and for use on turf crops. It may be used as a starter fertilizer with seed or transplants. It may also be soil applied. VINE BUILDER is intended to be a supplement to a regular fertilizer program. Rates on this label are for foliar application. May be applied by ground or air.

Limitations, Restrictions, and Exceptions

Other Vegetable Crops and Root Crops: Apply 2 to 3 quarts per acre every 2 weeks after plants are established.
