

# **TREE , VINE, BERRY CROPS - APPLES AND PEARS**

## General Information

### GENERAL INFORMATION

VINE BUILDER is designed to be used primarily for foliar application and for use on turf crops. It may be used as a starter fertilizer with seed or transplants. It may also be soil applied. VINE BUILDER is intended to be a supplement to a regular fertilizer program. Rates on this label are for foliar application. May be applied by ground or air.

### Limitations, Restrictions, and Exceptions

Apples and Pears: Use 2 to 4 quarts per acre at pre-bloom, petal fall, and once again 3-4 weeks later. Do not apply to Melrose Apples.
