

# **TREE , VINE, BERRY CROPS - GRAPES**

## General Information

### GENERAL INFORMATION

VINE BUILDER is designed to be used primarily for foliar application and for use on turf crops. It may be used as a starter fertilizer with seed or transplants. It may also be soil applied. VINE BUILDER is intended to be a supplement to a regular fertilizer program. Rates on this label are for foliar application. May be applied by ground or air.

### Limitations, Restrictions, and Exceptions

Grapes: Apply 1-2 quarts per acre when canes reach 15 to 20 inches. Apply another 2 to 3 quarts at pre-bloom buckshot stage and at 4-6 weeks prior to harvest
