

## **FIELD CROPS - RICE**

### General Information

#### GENERAL INFORMATION

VINE BUILDER is designed to be used primarily for foliar application and for use on turf crops. It may be used as a starter fertilizer with seed or transplants. It may also be soil applied. VINE BUILDER is intended to be a supplement to a regular fertilizer program. Rates on this label are for foliar application. May be applied by ground or air.

#### Limitations, Restrictions, and Exceptions

Rice: Apply 2-3 quarts per acre at boot stage and 1-2 weeks prior to bloom. Repeat again 2 weeks after bloom.
