

ALL CROPS - HIGH DEFICIENCY

General Information

GENERAL INFORMATION

CROP KICK is formulated for field, vegetable, row, fruit, tree, vine, ornamental and turf crops. CROP KICK may be applied alone or with fertilizers or pesticides. It may be applied either to the plant foliage or to the soil.

CROP KICK is compatible with most pesticides and fertilizers, except lime-sulfur, basic metal sulfates, metal oxides, etc. However, a compatibility test is recommended if the desired combination has not been used in the past.

DIRECTIONS: Shake or stir contents before use. Add to spray tank last.

CAUTION: Do not apply when crops are under stress. Apply the suggested rate of this product in multiple applications 10-14 days apart throughout the growing season of the crop.
