

USE RATES - SPRAY WATER ≤ 300 PPM HARDNESS

General Information

GENERAL INFORMATION:

REVEL is a blend of surfactant, sequestrants, chelating agents and ammonium sulfate. REVEL is designed to be used as a low use-rate, ammonium sulfate replacement.

REVEL will aid in: controlling hard water antagonism and improving pesticide performance.

REVEL has excellent plant safety.

DIRECTIONS FOR USE:

For Use With Products Registered For: Agricultural, Forestry, Industrial, Municipal, Ornamental, Rights-of-Way, Turf and Non-Cropland.

When adding additional adjuvants to the tank mix, some combinations may exhibit phytotoxic effects to the foliage or crop. Users should have experience with the combinations or follow the labeling requirements for all products and any adjuvant restrictions.

MIXING INSTRUCTIONS:

IMPORTANT - Add REVEL to the spray tank first before adding any other tank mix product, unless the tank mix pesticide(s) or additives direct otherwise.

Mixing Order

1. Fill tank 1/2 full of water and begin agitation.
2. Add the required amount of REVEL while agitating.
3. Continue filling spray tank with water and add the tank mix components as directed on the pesticide label(s).

Limitations, Restrictions, and Exceptions

Use REVEL at 2 pints/

100 gallons if spray water has ≤ 300 ppm hardness.
