

# **FOR THE CONTROL OF SLUGS AND SNAILS IN CLOVER GROWN FOR SEED AND CERTAIN SMALL SEEDED VEGETABLE SEED CROPS.**

## General Information

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do

not apply this product in a way that will contact workers or other persons, either directly or

through drift. Only protected handlers may be in the area during application.

- This Special Local Need (SLN) label and the federal label for this product must be in the possession of the user at the time of pesticide application.

- Follow all applicable directions, restrictions, and precautions on the Slugger ULTRA 4.0 Slug

& Snail Bait container label, EPA Reg. No. 71096-13, and this SLN.

- Apply by broadcast or at planting using in-furrow (seed drill) application equipment.

- Slugger ULTRA 4.0 Slug & Snail Bait should not be applied to dry soil. Applications should be made following an irrigation for best results. DO NOT re-water for 48 hours after application. Bait may be applied during any time of the day, but evening applications are preferred.

Crops grown for Seed listed on this label: Broadcast application. The maximum application rate

is 5-20 lbs. product (0.8 lb ai)/A per application. The maximum number of applications per

growing season is 4 at a minimum of retreatment interval of 14 days.

## Limitations, Restrictions, and Exceptions

### SPECIAL CROP USE RESTRICTION

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that

use of this product according to this labeling is deemed a nonfeed/non-food use by the Oregon Department of Agriculture, and is regulated by Oregon Administrative Rule(OAR) 603-057-0535, Pesticide Use on Crops Grown for Seed. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner. This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed may be used or distributed for food or feed for 1 year (365 days) after the last application of this product. This restriction pertains to, but is not limited to, green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that the screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.
