

## **DRY BONDED ADJUVANT**

### General Information

#### GENERAL INFORMATION:

IMPRESSIVE DB delivers crop oil performance in a bag, without the crop injury. Designed for use with all herbicides that require both AMS and NIS in the adjuvant system. Formulation of AMS, blend of three NIS's, and an anti-foaming agent.

#### MIXING INSTRUCTIONS:

Fill the spray tank 1/3 to 1/2 full with water and begin agitation. Add any herbicides in water-soluble packages to the tank and allow them to completely dissolve. Slowly add the required amount of Impressive DB. Fill the tank to 3/4 full with water then add any additional herbicides to the spray mix. Add the remainder of the water and continue agitation until all solution has been applied. These are general tank-mix instructions only, always read and follow the TANK-MIX instructions listed on the herbicide label.

#### Limitations, Restrictions, and Exceptions

Add IMPRESSIVE DB to the spray tank-mix at the rate specified by the herbicide label. Before mixing the spray solution it is recommended that a compatibility test be performed in a small (1 qt.) container. If all components of the spray mix are compatible, add the contents of the small container to the spray tank and begin mixing operation.

#### USE RATE:

Use IMPRESSIVE DB at 2.25 lbs./acre. (1-BAG/45 pounds) of IMPRESSIVE DB treats 20 acres. Always check the pesticide label for specific use directions.
