

WARM SEASON GRASSES

General Information

GENERAL INFORMATION

Hydra-Hume is designed for soil and foliar applications. Hydra-Hume can be applied 5-6 times during the growing season. Apply at no more than 3 gallons per application. Products containing humic acids, such as Hydra-Hume, may aid in the uptake of micronutrients.

SUGGESTED DIRECTIONS

Hydra-Hume can be applied to trees, vines, ornamentals, lawns and garden landscaping.

Limitations, Restrictions, and Exceptions

WARM SEASON GRASSES: 4 oz. - 8 oz. per 1,000 sq. ft. per month all season long. Target applications ahead of stress periods. Target one of the applications for overseeding.
