

SOIL CONDITIONER

General Information

GENERAL INFORMATION

HYDRA-HUME AN is designed for soil and foliar applications. Humic Acid products, such as HYDRA-HUME AN, may aid in the uptake of micronutrients

SUGGESTED DIRECTIONS

Apply HYDRA-HUME AN at the rate of 1/4 - 1 gallon per acre in enough water to provide for thorough coverage. HYDRA-HUME AN can be used in most crop protection sprays.

Apply HYDRA-HUMEAN at the rate of 1/4 - 1 gallon per acre with most liquid fertilizers in soil applications.
